Design, quality and performance in one product!

Ergonomics

The control panel and the dispensing point are positioned at an ergonomic height, for practical operation.

Sturdiness and reliability

The external metal casing provides sturdiness and makes the product suitable for use in environments subject to stringent hygienic requirements.

Cup dispenser

Integrated cup dispenser. Capacity 100 pcs.

Drainage

The drip tray is pre-arranged to be connected to the drain.

Plus optional

Next generation anti-bacterial UV Barrier

To protect the dispensing area.

Stainless steel shell

Machine body entirely in AISI 304 stainless steel.
