consumer recycle)

ECO-PA

TANKS FOR WATER TREATMENT

Material properties

Polyamide 6

Melting point: 220°

Tensile Strength: 82 N/mm2

Flexural Strength: 3300 N/mm2

Recyclable by depolymerisation 100%

Internal liner of ethylene acid acopolymer

Working conditions

Working Pressure: 10,5 bar / 150 psi

Vacuum Resistant

Maximum working temperature: 50 °C

Minimum burst pressure: 42 bar / 600 psi

Safety factor 4:1
