煤质破碎状活性炭和粉末状活性炭为我公司的主打产品。碘值从600mg/g 到1050mg/g 皆可生产，粒径有8x30目，12x40目，4x8目，等。同时，我公司也可生产客户指定规格的产品。

"XINHUI" brand activated carbon is made from strictly selected coal by using advanced technology. The advantages of our activated carbon are having highly developed porous structure and large specific surface, high hardness, superior wear and impact resistance, and can be regenerated. It has high capacity of organic solutes adsorption, free chlorine and harmful gas in air.

Coal based GAC ( granular activated carbon) and PAC ( powdered activated carbon) are our main products. The iodine No. is mainly from 600mg/g to 1050mg/g, and the particle size contains 8x30 mesh, 12x40 mesh, 4x8 mesh, and so on. We can also produce activated carbon as clients' requirements.

### 应用领域/ **Application:**

我公司生产的活性炭可以应用于水处理，空气净化，脱硫脱硝，溶剂回收，触媒载体，以及超级双电解电容器等各项领域。

Water Treatment, Air Purification, Desulfurization and Denitrification, Solvent Recovery, Catalyst Carrier or Catalyst, EDLC, and so on.
