FW-S1

Looks like Nature, Purification as more than Nature

The water in the forest as a design motive, a new concept of water purifier to supply elegant design and harmonious clean and nature clean water.

FW-S1

- Type Nano Filtering
- Color Black / White
- Size 180(W)×400(H)×518(D)
- Capacity of water Cold water 2ℓ Instant hot water
- Filter Compound filter,
Block Carbon filter ,
Nano+ filter
- Consumption Cold water 0.6A, Hot water 2400W

Feature

- Smart Standard Quantity & Continue outlet water
- Smart Automatically outlet water
- Direct watering type of Cold / Hot water

Electronic Touch

Easy to use and choice by Electronic Touch Switch & Jog Switch

(Child Lock) Child Lock of Hot water Function

Prevent accident & Safety Child from Hot water.

Easy to control 4 steps of temperature Range

Easy to use Warm temperature water, Cold water,
Normal Purify water and Hot water

※ Warm temperature water is for making Milk of baby and taking medicine.

Smart Standard Quantity outlet water

Easy to choice for outlet water function :
a cup of water (120ml) / 500ml / Continue

EC(Easy Change) Filter

Easy to change each filter for customer

Electronic Touch / Jog Switch

Magnet used for Water Tray

Easy to install, Always keep clean

The Cock that easy to clean and separate

Sanitation Form that easy to clean and separate
without any tool by hand

Simbi Water Purifier Filter System

New Generation Nano+ Filter System by double structure filtering

New Generation Nano+ Filter System destroy 99.9% of colon bacillus, norovirus and particle heavy metal through the Electro-adsorptive Technology.

Clear **99.9%** of Virus and harmful substance by Nano Technology.

Remove & adsorb the bacteria and virus by Electrostatic power.

Freshwater Nano+ Filtering

		
Remove 99.9% Germ	Remove 99.9% Virus	Remove 99.9% Bacteria

(Staphylococcus, Germ) Compound filter → Block Carbon filter → Nano+ Filter

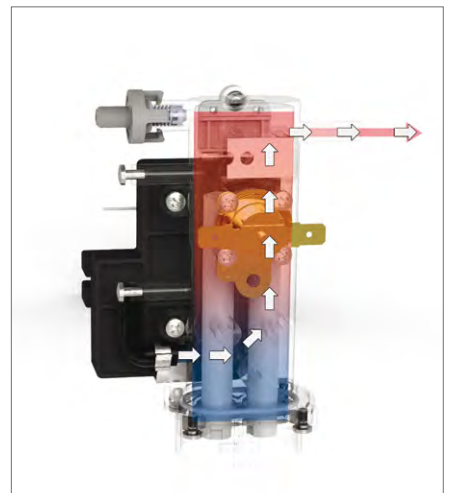

Economic Function

Automatic Economic function will be running in the Night or Dark.

Direct Water Type

Without Tank that means it's impossible to stay some Virus. / Sanitation Structure
Available to drink water of 23 cups of 10°C

Instant Hot Water

Use Safety Ceramic Heater for Hot water

Desktop Type Water Purifier

FW-2500

- Type UF(Direct Water Type)
- Function Purify Water
- Color Red
- Size 150(W)×410(D)×349(H)

FW-2500H

- Type UF(Direct Water Type)
- Function Purify Water
Instant Hot Water
- Color Red
- Size 150(W)×410(D)×349(H)

FW-560S

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Black
- Size 290(W)×400(D)×456(H)
- Capacity of Tank Cold water 3 ℓ
Hot Water 1.5 ℓ
- Temperature Cold 4–10℃ / Hot 80–90℃
- Consumption Cold 85W / Hot 300W

FW-3700S

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Black
- Size 290(W)×400(D)×456(H)
- Capacity of Tank Cold water 3 ℓ / Hot Water 1.7 ℓ
- Temperature Cold 4–10℃ / Hot 80–90℃
- Consumption Cold 125W / Hot 500W

novita

NWP-1100H

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Black
- Size 290(W)×400(D)×455(H)
- Capacity of Tank Cold water 3 ℓ / Hot Water 1.5 ℓ
- Temperature Cold 4–10℃ / Hot 80–90℃
- Consumption Cold 80W / Hot 300W

NWP-3100H

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Black
- Size 290(W)×410(D)×480(H)
- Capacity of Tank Cold water 3 l / Hot Water(pot) 1 l
- Temperature Cold 4-10℃ / Hot 80-90℃
- Consumption Pot 1200W

FW-520S

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Red
- Size 290(W)×400(D)×456(H)
- Capacity of Tank Cold water 3 l / Hot Water 1.5 l
- Temperature Cold 4-10℃ / Hot 80-90℃
- Consumption Cold 80W / Hot 300W

Undersink Purifier

F-500

- Type RO
- Function Purify Water
5step Filters
- Color White
- Feature High quality Faucet & Storage Water Tank

F-502M6

- Type RO
- Function Purify Water
6step Filters
- Color White
- Feature High quality Faucet, Storage Water Tank & N6 Magnetic Filter

F-305W

- Type UF
- Function Purify Water
5step Filters
- Color White
- Feature High quality Faucet

F-301

- Type UF
- Function Purify Water
4step Filters
- Color Red
- Feature High quality Faucet

Stand Type Water Purifier

Health of Family
FRESHWATER will be together

FW-3700

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Black
- Size 290(W)×400(D)×1100(H)
- Capacity of Tank Cold water 3 ℓ / Hot Water 2 ℓ
- Temperature Cold 4-10℃ / Hot 80-90℃
- Consumption Cold 100W / Hot 500W

FW-520

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Red
- Size 290(W)×400(D)×1110(H)
- Capacity of Tank Cold water 3 ℓ / Hot Water 2 ℓ
- Temperature Cold 4-10℃ / Hot 80-90℃
- Consumption Cold 100W / Hot 500W

novita

FW-560

- Type UF / RO
- Function Cold Water / Hot Water
- Color Black
- Size 290(W)×400(D)×1110(H)
- Capacity of Tank Cold water 3 ℓ / Hot Water 2 ℓ
- Temperature Cold 4-10℃ / Hot 80-90℃
- Consumption Cold 100W / Hot 500W

NWP-1100S

- Type UF / RO
- Function Cold Water / Hot Water
- Color White / Black
- Size 290(W)×400(D)×1110(H)
- Capacity of Tank Cold water 3 ℓ / Hot Water 2 ℓ
- Temperature Cold 4-10℃ / Hot 80-90℃
- Consumption Cold 100W / Hot 500W

100% Perfect Sterilization System of 1st Special Patent in the World

FW-820

- Type UF / RO, UV
- Function Cold Water / Hot Water
- Color Black
- Size 360(W)×415(D)×1240(H)
- Capacity of Tank
 - Storage Water 2 ℓ
 - Cold Water 4.9 ℓ
 - Hot Water 4.9 ℓ
- Temperature Cold 4–10℃ / Hot 80–90℃
- Consumption Cold 100W / Hot 700W

FW-630

- Type UF / RO
- Function Cold Water / Hot Water
- Color White
- Size 340(W)×405(D)×1205(H)
- Capacity of Tank
 - Storage Water 4 ℓ
 - Cold Water 3 ℓ
 - Hot Water 3 ℓ
- Temperature Cold 4–10℃ / Hot 80–90℃
- Consumption Cold 93W / Hot 450W

FW-808N

- Type UF / RO
- Function Cold Water / Hot Water
- Color Ivory
- Size 365(W)×415(D)×1240(H)
- Capacity of Tank
 - Storage Water 15 ℓ
 - Cold Water 4.9 ℓ
 - Hot Water 4.9 ℓ
- Temperature Cold 4–10℃ / Hot 80–90℃
- Consumption Cold 93W / Hot 450W

Electric BIDET

BD-KN330R

- Power 220V/60,50Hz
- Weight 5.2kg
- Color White
- Size 483(W)×543(D)×155(H)
- Consumption 1300W Max

BD-K300

- Power 220V/60,50Hz
- Weight 4.6kg
- Color White
- Size 470(W)×530(D)×155(H)
- Consumption 1460W Max
- Electric Leakage Circuit included

Hydrogen Water Purifier

FH-101

- Type UF / RO
- Function Cold Water / Hot Water
Hydrogen Water
- Color Black
- Size 290(W)×400(D)×1100(H)
- Capacity of Tank Cold Water 3ℓ / Hot Water 2ℓ
- Temperature Cold 4~10℃ / Hot 80~90℃
- Consumption Cold 100W / Hot 500W
- Hydrogen Rate 800~1000ppb

FW-2500H+

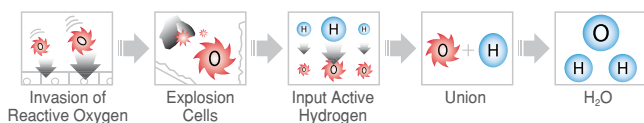

- Type UF (Direct Water Type)
- Function Purify Water /
Hydrogen Water
- Color Red
- Size 150(W)×410(D)×349(H)
- Hydrogen Rate 800~1000ppb

Cluster

- The regular water of cluster hydrogen bond 5~13 units.
- The cluster is smaller, the motility cluster will be increased.
- Method of minimize of cluster.
 - To make water cold. When the temperature 4℃ the density of water is maximum.
 - Magnetic field.
 - Electrolysis.

Antioxidant Effect

Reducing Power

- To suppress the propagation of putrefactive bacteria and multiply propagation of beneficial bacteria in colon.
- There is one hundreds types of microorganism is counted one hundred trillion in colon. This Microorganism is divided into beneficial bacteria, putrefactive bacteria and other bacteria.
- Electrolytic Reduction water (Alkali electrolytic water) is only water in the earth to help beneficial bacteria and prevent a disease by inhibition of poisonous substance formation. It gets rid off free oxygen radicals. Oxygen have strong properties to combined with the surrounding material. The oxidation process is a normal by product of our metabolism that produces "free radicals", which damage the body's cells and over the time its major.

The company supply clean water
thinking over people's health and
do our best for services & maintenance.
