

UPS3 NL + ultrafiltration HF

innovative ultrafiltration technology

easy cartridge replacement - no tools required

high efficiency

Antibacterial

Leaves beneficial minerals while removing contaminants

Finest mechanical filtration

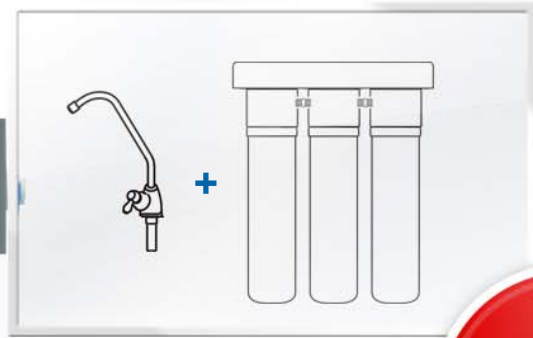

Fights turbidity

Removal of up to **98% of water-soluble cations** (positively-charged ions) of lead, mercury, copper, nickel, chromium, and other dissolved metals.

Strengthened by Active Nanocluster Medium (ANM)

Filters the source of water to **0,05 microns**

0,05 microns
