

Connected Filtration Towers

- Modular and compact design.
- Variable numbers of Filtration Modules per Filtration Tower and variable number of Filtration Towers per connected unit.
- Integrated air scouring system, filtered water & backwash piping and Sprinkler system.

Applicable for

✓ Drinking Water ✓ Sewage

Project Size

✓ Medium

Type of Ceramic Flat Membrane	See technical data sheet “Ceramic Flat Membrane”											
Type of Filtration Module	See technical data sheet “Filtration Module T-Series”											
Fields of Application	Drinking Water						Sewage					
No. of Filtration Towers*	4	8	10	12	14	16	4	8	10	12	14	16
No. of Filtration Modules per Tower*	7						12					
Total Filtration Area [m²]	112	224	280	336	392	448	192	384	480	576	672	768
Total Weight [kg]	1,250	2,350	3,100	3,700	4,300	4,900	1,800	3,500	4,450	5,350	6,250	7,150
Height [mm]	2,500						3,150					
Width [mm]	1,600
