About BWT

The BWT – Best Water Technology – Group is a leading water technology company in Europe with a staff of more than 5,500, working on innovative, economic and ecologically friendly water treatment technologies to provide private households, industry, commerce, hotels and municipalities with the safest, healthiest and most hygienic water possible for their day-to-day needs.

BWT provides modern water treatment systems and services for drinking water, process water, pool water and, especially, WFI – water for injection for the pharmaceutical and biotech industry.

The company's research and development staff works on new techniques and materials using cutting-edge methods to develop economical and ecologically friendly products. Employees work particularly hard to create products which use fewer resources and less energy, thereby reducing CO2 emissions.

Sustainability is in BWT's DNA, and every BWT product contributes to the conservation of our most valuable resource, water. BWT's Claim – For You and Planet Blue – is today more relevant than ever before, given the challenges our society faces worldwide today. With its unique and patented water treatment technologies, BWT contributes every day to ["Change the World – sip by sip"](#), by transforming local water sources into best, tasty, mineralized drinking water, avoiding the transport of single-use plastic and glass bottles around the globe, reducing CO2 emissions and minimizing plastic waste. Also with its worldwide leading know how in the development and production of high-performance membranes for the fuel cell – the energy converter of the 21st century – BWT works towards its mission "For You and Planet Blue".
