

EASYCHLORGEN

Safe, reliable & efficient on-site generation of sodium hypochlorite

Safe Preparation of Sodium Hypochlorite

EASYCHLORGEN electrochlorination systems provide an on-demand supply of <1.0% sodium hypochlorite solution, generated through the electrolysis of diluted brine solution.

Due to the low caustic and mineral content of the generated solution, injection point cleaning and descaling tasks are completely eliminated.

Commercial strength sodium hypochlorite can degrade quickly in storage, often losing up to 20% of its chlorine content. The <1.0% sodium hypochlorite solution produced by the EASYCHLORGEN system does not require caustic buffer chemicals or additives to retain its chlorine content. It can remain at its original chlorine concentration for months.

The combination of storing low strength solution, the avoidance of chemical deliveries, handling and operator involvement significantly reduce the likelihood of any accidental spillage.

Easy to operate

The operator is required to fill the salt saturator tank with salt. From this, the EASYCHLORGEN system produces a concentrated brine solution which is then diluted to the correct strength for efficient electrolysis. The diluted brine is then delivered to the electrolytic cell where electric current is passed through the solution, producing sodium hypochlorite. The process is continued automatically until the product storage tank is filled.

A range of metering and transfer pump options are available to convey the hypochlorite safely to the disinfection/treatment process.

Functions

- On site electrolysis of brine for safe generation and preparation of <1% sodium hypochlorite solution
- Safe and fully sealed electrolytic process
- Easy to operate
- Integrated control panel & OLED screen
- Manual and automatic operation
- Multilingual operating display option
- Telemetry alarm event & data logging option
- Chlorine production from 25 g/h to 8.5 kg/h

Benefits

- Eliminate delivery & handling of hazardous chemicals
- Handle only salt
- Generate on site for on-demand or residual storage
- Eliminate dosing pump air-locking associated with commercial hypochlorites
- Eliminate injection point scaling associated with commercial sodium and calcium hypochlorites
- Considerable Health & Safety benefit to operators

Areas of Application

- Chlorination of potable water supplies
- Food washing / processing treatment
- Dairies / Breweries cleaning in place (CIP)
- Cooling tower biocide treatment
- Secondary disinfection
- Industrial chlorination treatments
- Swimming & Spa pool disinfection

Product Description EASYCHLORGEN Compact 25, 50, 100 g/h chlorine production

EASYCHLORGEN Compact Modular (Wall mounted)

Item	Description
①	Electrolyser
②	Water flow management control module
③	Electric supply isolator
④	Control panel
⑤	Salt saturator / hopper
⑥	Visual salt level indicator and brine saturation chamber
⑦	Ventilation exhaust
⑧	Product storage tank
⑨	Floor standing skid and integrated spill containment

EASYCHLORGEN Compact Skid-1

EASYCHLORGEN Compact Skid-2

Product Description EASYCHLORGEN Standard 180, 280, 560, 1100, 2200 g/h chlorine production

Item	Description
①	Brine control
②	Diluted brine / salinity S.G. sample point
③	Control panel
④	Centrifugal ventilation fan
⑤	Feed water flow management
⑥	Product strength sample point
⑦	Softened feed water sample point
⑧	Softener system
⑨	Electrolyser
⑩	Integral product storage & degassing tank
⑪	Sealed electrolyser compartment
⑫	Ventilation exhaust connection
⑬	Product outlet connection
⑭	Softened water outlet connection
⑮	Feed water supply connection
⑯	Integral salt saturator

Product Description EASYCHLORGEN High Capacity 4.25, 8.5 kg/h chlorine production

Item	Description
①	Feed water pressure regulator & water management assembly
②	Diluted brine / Salinity S.G. sample point
③	Product strength sample point
④	Control panel
⑤	Electric supply isolator
⑥	Softened feed water sample point
⑦	Centrifugal ventilation fan
⑧	Electrolyser
⑨	Product degassing tank
⑩	Sealed electrolyser compartment
⑪	Ventilation exhaust connection
⑫	Product outlet connection
⑬	Saturated brine feed connection
⑭	Feed water supply connection
⑮	Transformer/Rectifier panel

EASYCHLORGEN - Standard version

Compact-Modular comprising:

- Electrolytic chlorine generation unit
- Automatic ion-exchange softener kit
- 50 litre product storage tank & level control assembly kit
- Power supply 240 V ac 50 Hz Ø1

EASYCHLORGEN Compact-Modular (Wall mounted)	Type		Generator capacity	Part No.
	C1-M-F1-0-T1-V2	Compact-Modular 25	25 g/h	65000000
	C2-M-F1-0-T1-V2	Compact-Modular 50	50 g/h	65000001
	C3-M-F1-0-T1-V2	Compact-Modular 100	100 g/h	65000002

EASYCHLORGEN

Compact-Skid comprising:

- Electrolytic chlorine generation unit
- Automatic ion-exchange softener kit
- 50 litre product storage tank & level control assembly kit
- Power supply 240 V ac 50 Hz Ø1

EASYCHLORGEN Compact-Skid	Type		Generator capacity	Part No.
	C1-S-F1-0-T1-V2	Compact-Skid 25	25 g/h	65000003
	C2-S-F1-0-T1-V2	Compact-Skid 50	50 g/h	65000004
	C3-S-F1-0-T1-V2	Compact-Skid 100	100 g/h	65000005

EASYCHLORGEN

Standard and High Capacity comprising:

- Electrolytic chlorine generation unit
- Automatic ion-exchange softener kit
- Power supply for capacity 180 - 560 g/h, 240 V ac 50 Hz Ø1
- Power supply for capacity 1100 - 8500 g/h, 380-440 V ac 50 Hz Ø3

EASYCHLORGEN Standard and High Capacity	Type		Generator capacity	Part No.
	H1-S0-T0-1	Standard 180	180 g/h	65000006
	H2-S0-T0-1	Standard 280	280 g/h	65000007
	H3-S0-T0-1	Standard 560	560 g/h	65000008
	H4-S0-T0-2	Standard 1100	1100 g/h	65000009
	H5-S0-T0-2	Standard 2200	2200 g/h	65000010
	H6-S0-T0-2	High Capacity 4250	4250 g/h	65000011
	H7-S0-T0-2	High Capacity 8500	8500 g/h	65000012

EASYCHLORGEN - accessories

Hydrogen gas detector

Hydrogen gas detector for positioning in chlorine plant room adjacent to the EASYCHLORGEN for fail safe detection and shutdown.

Supplied as standard with every EASYCHLORGEN unit

Softener filter cartridge unit

Softener filter cartridge unit option for use in conjunction with COMPACT systems.

Incorporates replacement cartridge element for easy and convenient maintenance.

Standard and high capacity softener cartridge options.

Automatic regenerative softener unit

Automatic regenerative softener unit option for use in conjunction with COMPACT systems.

Requires local power supply and waste drain for backwash outflow.

Brine tank options

External salt saturator for use in conjunction with STANDARD and HIGH CAPACITY systems.

Salt storage of 150, 300, 500, 1000 kg and special saturator designs.

Product tank options

External product storage tanks for use in conjunction with STANDARD and HIGH CAPACITY systems with level control assembly kit. Product volumes 75, 300, 500, 1000, 2000 L and custom designed product Tanks.
