

Product Fact Sheet:

Elkay ezH2O® Liv™ Built-in Filtered Water Dispenser

Product Overview

Elkay® is proud to introduce the first built-in filtered water dispenser designed especially for the home. The unit features our NSF-certified filter, giving homeowners the added assurance of knowing they are serving family and friends cleaner, healthier water. The elegant glass-front design includes sensor lights that indicate when the filter needs to be changed, and our exclusive Green Ticker™ that counts bottles saved from waste.

With more than 50 years of experience in manufacturing water delivery products, including the award-winning ezH2O® commonly found in schools and at airports, Elkay is proud to lead the way with the next generation of at-home water solutions.

Key Built-in Filtered Water Dispenser Features:

- **Built-in Design:** Homeowners can enjoy an interactive experience by installing a filtered water dispenser in convenient areas of the home, inside — and outside the kitchen. Place anywhere near a water line and electrical, including mudrooms, recreation rooms, playrooms and even in a second-floor hallway. Designed for new construction or remodels.
- **Fun and Convenient:** Self-serve design allows homeowners to spend more time with guests and less time running to the kitchen for water.
- **Fresh, Filtered Water:** Long-lasting filter is NSF certified to put cleaner, healthier water within reach by reducing lead and other harmful contaminants. Filters with lead-reduction capabilities are not standard and are rarely found on refrigerators with water dispensers. Water purchased in plastic bottles is susceptible to chemical leaching over time, altering the taste.
- **Filter Status Lights:** Colorful lights indicate when the filter needs to be changed, so homeowners always know they are serving filtered water.
- **Chic Styling:** Sleek glass front with brushed stainless steel alcove looks great in any room. Intuitive alcove lighting brightens when dispensing water.
- **Sensor Activated:** Hands-free filling with automatic timed shut off to help prevent accidental spills and messes.
- **Safety Lock:** Optional setting prevents unsupervised use; ideal for families with small children or pets.
- **Bottles Saved:** Backlit LED Green Ticker counts the number of 20 oz. disposable single-use plastic bottles served without the plastic bottle waste.
- **Easy Installation:** Fits within the width and depth of two wall studs; includes a drip tray with optional drain connection.

Available Models:

- **Models:** LBWD00BKC and LBWD00WHC, non-refrigerated; LBWD06BKK and LBWD06WHK, refrigerated.
- **Finishes:** Glass front available in Midnight or Aspen White.

About Elkay Manufacturing

Family owned since 1920, Elkay has been making innovative products and delivering exceptional customer care for almost a century. While proud to be America's No. 1 selling kitchen sink company, Elkay expanded its commercial offerings more than four decades ago, and today delivers [faucets](#), [foodservice fixtures](#), [water coolers](#), [drinking fountains](#) and award-winning ezH2O® [bottle filling stations](#), in addition to world-class stainless steel and quartz sinks.
