## ABOUT ARICON

ARICON Kunststoffwerk is situated in Solingen, centrally in between the industrial area of the rivers Rhine and Ruhr. Since 1993 ARICON designs, produces and distributes high quality moulded parts made from Polyethylene, manufactured by rotational moulding. ARICON's wide product range is based on our customers requirements. Markets are all fields in the process technology using chemicals, water or food - liquid or as bulk good.

## EXPERTISE

The focus of our business are our customer's needs. They can rely on our long year experience and knowledge about our products. We assist you with all our expertise to find the right tank for your special requirements and supplementing with accessory. The whole production process and the products are permanently controlled by our quality assurance.

## Premium Quality

- Made by rotational moulding, seamless
- Made of Polyethylene
- Chemical resistant
- UV-stabilised, food-safe
- High wall thickness
- Smooth inner surface
- Stable in shape from -30°C up to +60°C
- Durable mounting areas

## ACCESSORIES

Our high-class series of tanks for water treatment are deliverable from stock. On request, we equip all containers with fittings and accessories to your requirements. Individual modifications with special components can be mounted on request. The assembling is carried out in our workshop with state of the art machines and technology in the field of plastics processing. Chemical-safe spill trays with DIBt-Certification are also deliverable from stock.

## CUSTOM MOULDED PARTS

We can realise to produce your individual containers and apparatuses. Matching to your requirements, with your logo, in your colour and with metal-inserts for a quick connection to your units. You will get a product with the same high quality that our containers excel: resistant to impact and stress, seamless, chemical resistant, water-proof, UV resistant, colour-proof and temperature-resistant from -40°C up to +60°C. Our production process is very efficient and economic at small and medium quantities.

# Dosing Tanks

**Dosing Tanks**  
35 – 3 000 litre

## Dosing Tanks Series

**FD-E**  
**Our standard type**  
35 up to 3 000 litre  
Dosing tank with a versatile mounting surface

**FD-A**  
**Semi-circular mounting surface**  
35 up to 500 litre  
Pre-equipped with moulded-in nuts for a safe connection with the placement area

**FD-C**  
**Straight mounting surface**  
40 up to 1 000 litre  
Pre-equipped with moulded-in nuts for a safe connection with the placement area

**FD-G**  
**Mounting area with moulded-in nuts**  
60 up to 200 litre  
Moulded-in nuts for a safe mounting of pumps, electrical agitators and fitting angles

**FD-I**  
**Mounting area with moulded-in nuts**  
60 up to 100 litre  
Moulded-in nuts for a safe mounting of pumps

**FD-L**  
**Dosing Tank with large volume**  
1 100 up to 3 000 litre  
The dosing tank with a large volume und a cross-shaped mounting surface

**BD-A**  
**Rectangular dosing tank**  
500 litre

# Open Top / Storage Tanks

**Cylindrical Tanks SB/SBV with Lid**  
1 150 – 26 700 litre

**Open Top Tanks / Containments SBO / CTB**  
15 – 26 700 litre

**Brine Tanks / with Salt Grid**  
15 – 1 000 litre

**Storage Tanks**  
60 – 30 500 litre

# Spill Trays / Containers

**Certified Spill Trays / Spill Pallets**  
15 – 1 500 litre

WR Tray with flat bottom

WRL with PP grids

WRP with PP grids and forklift tunnel

**Containers**  
30 - 19 600 litre

## Accessories and Customised Components

In our workshops all tanks from our product rage can be equipped with accessories to your process requirements:

- Fittings
- Filling/suction lances
- Steel frames/stands
- Level indicators
- Agitators
- Welded splash guards
- CNC tailor made parts
